Set up a Pay Schedule

Before, the Pay Schedule page asked for all the data at the same time, on one long page.

Now, the page first asks for the name and the frequency. Departments, the pay day, the pay period and approval are each folded until you open them. A new Pay Schedule starts with values filled in. Its name, dates and prompts change to agree with the frequency that you choose.

Set up a Pay Schedule in a few clicks, and change only what is different.
